

# Sweet Annie (Greatest Hits Version)

## Zac Brown Band

I been burning Bright  
For so long I can't remember  
Pretty girls and late night bars seem to be my line of work  
Believe me when I say, I can't stay this high forever  
This man's had all he can stand, time to lay this body down Can I stay with you a while  
Cause this roads been putting miles on my heart,  
Sweetheart I've been livin in a fantasy  
But one day Lightning will strike  
And my bark will lose it's bite  
Don't' give up on me  
Sweet Annie. I know I promised you a life  
But an empty bed and the words I said don't carry any weight  
If I could take back yesterday, Find a way to start it over  
Turn around, put that bottle down and pray it's not too late  
Can I stay with you a while  
Cause this roads been putting miles on my heart,  
Sweetheart I've been livin in a fantasy  
But one day Lightning will strike  
And my bark will lose it's bite  
Don't' give up on me  
What will be will be Sweet Annie. Turn out the light  
These hands alone to hold you  
Fall all over you  
All over again  
Come a little closer so I can show you  
My heart still beats fast for you  
All over, and over again  
Can I stay with you a while  
Cause this roads been putting miles on my heart,  
Sweetheart I've been livin in a fantasy  
But one day Lightning will strike  
And my bark will lose it's bite  
Don't' give up on me
