

Stuck in Orbit (feat. BUOY)

What So Not

[Verse 1]

I overcompensate
So close, now I need space[Pre-Chorus 1]
I just sit and wait, so stranded
Hoping that you see through
There's so much left to explain
Maybe this could reach you[Chorus]
Read my love
How will you read my love
Read my love
Wish you could read my love

[Verse 2]

I overcomplicate
You float through here
I remain[Pre-Chorus 2]
I don't wanna play hopeless games
I'm tired of this constant blue
There is so much left to explain
Maybe this could reach you[Chorus 1]
Read my love
How will you read my love
Read my love
Wish you could read my love

[Post-Chorus]

I'd do it for you
I'd do it for you
I'd do it for you
I'd do it for you I'd do it for you
I'd do it for you
I'd do it for you
I'd do it for you[Bridge]

Stuck in orbit

I just wanna feel something
Hard to tell if this emotion
Is something I should let you open Stuck in orbit
I just wanna feel something
Hard to tell if this emotion
Is something I should let you open[Chorus 1]
Read my love
How will you read my love
Read my love
Wish you could read my love
