

# Soul Boy

## The System

Come rain or sunshine from distant storm clouds  
A pink umbrella for your purple passion flower  
And in these blue hours just when the moon falls down  
I'll be your soul power beneath the satin armour  
My heart is red tonight back in my cadillac  
Weak is resistance I want your lov back  
Cause satisfaction's joy and  
I can give you more (you hear me prayin')  
Hear what I'm sayin (hear me prayin')  
I wanna be a soul boy for you  
I wanna make all your dreams come true  
I wanna be a soul boy for you  
Too many people stopping for red lights  
Going for green lights, I'm in between lights  
I wanna ne more than just a freind tonight  
Let's make some cherry love under a black light  
Or yellow sunshine, oh wouldn't that be nice  
Yes, taking our time, I wanna do things right  
Soul mate heart  
Your game from the start  
Hear me prayin'  
I wanna be a soul boy for you  
I wanna make all your dreams come true  
I wanna be soul boy  
I wanna be more than just a freind tonight  
I wanna be yours for all my life  
And in the bluehours just when the moon falls down  
I'll be your soul power
