

# Shy

## Leon Bridges

Staring at the ceiling  
Hearts and records spinning, round  
I've been, loving with no meaning  
Crawling from a feeling, that  
You know that I want you Mmm, don't get me started at this time of night  
Hard to keep my guard up and the feeling's right  
I don't need nobody but for you I might  
And all that want is you I just wanna teach you  
You could come over  
I know you're shy  
You can be shy with me  
You know I need you  
And I'm not quite sober  
I know you're shy, baby  
You can be shy, it's alright  
I just wanna teach you  
You could come over  
I know you're shy  
You can be shy with me  
You know I need you  
And I'm not quite sober  
I know you're shy, baby  
You can be shy  
You can be shy, with me Met you back in August  
Thought you were standoffish, coy  
But you don't have to try  
I'll read between your lines  
'Cause darling I want you  
Ohh ohh ohh why?  
You ain't gonna have what you want tonight  
No, take your time  
We can move slow, put your hips on mine  
Hey, you're so shy  
Why don't come round here and waste my time  
'Cause all that I want is you I just wanna teach you  
You could come over  
I know you're shy  
You can be shy with me  
You know I need you  
And I'm not quite sober  
I know you're shy, baby  
You can be shy, shy

It's alright I just wanna see you  
You could come over  
I know you're shy  
You can be shy with me  
'Cause baby I need you  
And I'm kinda shy too  
Maybe tonight, baby  
You can be shy  
You can be shy, with me
