

Bittersweet Company

[Kip Moore](#)

We were summer love was burning
We were white magnolias in bloom
By the time the leaves had fallen, I had already fallen for you
Then winter came, brought the rain, something in between us changed
Now we can't get it back Oh, but I remember when we
Loved each other so fearlessly
So tell me how the hell did we
Turn into bittersweet company?
Our chemistry, the jealousy, a symphony of things gone wrong
There's something here behind the tears for all the years that we've held on
It'd be easier to let you go, let this thing go up in smoke
Leave and let it turn to ash Oh, but I remember when we
Loved each other so fearlessly
So tell me how the hell did we
Turn into bittersweet company? Oh, I remember when we
Loved each other so damn fearlessly
So tell me how the hell did we
Turn into bittersweet company?
Oh, I remember when we
Yeah, loved each other so damn fearlessly
So tell me how the hell did we
Turn into bittersweet company?
