

# When I'm With U (feat. Maia Wright)

## Tritonal

I wish you couldn't hear me  
Like the secret you gave me  
That night in December  
Got cold and was frozen  
You wrapped your arms around me  
I know you remember  
We've been on that on and off thing  
We can go for weeks no talkin'  
But it's been a month I'm wondering  
No complications but do you feel like I do?  
'Cause when I'm with you  
When I'm with you  
When I'm with you  
Everything's cool  
When I'm with you  
When I'm with you  
Wanna get loose  
When I'm with you  
When I'm with you  
No complications but do you feel like I do?  
Do you feel like I do?  
Do you feel like I do?  
No complications but do you feel like I do?  
You've been here for a while now  
Feels like it's time to find out  
Can we take it further  
Our lips need no distance  
I must keep on resistin'  
Oh we should come closer  
We've been on that on and off thing  
We can go for weeks no talkin'  
But it's been a month I'm wondering  
No complications but do you feel like I do?'Cause when I'm with you  
When I'm with you  
When I'm with you  
Everything's cool  
When I'm with you  
When I'm with you  
Wanna get loose  
When I'm with you  
When I'm with you  
No complications but do you feel like I do?  
Do you feel like I do?

Do you feel like I do?  
No complications but do you feel like I do?  
Do you feel like I do, I do?  
When I'm with you, you? Yeah yeah  
Do you feel like I do, I do?  
When I'm with you, you? Yeah yeah We've been on that on and off thing  
We can go for weeks no talkin'  
But it's been a month I'm wondering No complications but do you feel like I do?  
When I'm with you  
No complications but do you feel like I do?  
No complications but do you feel like I do?  
No complications but do you feel like I do?  
'Cause when I'm with you  
When I'm with you  
When I'm with you  
Everything's cool  
When I'm with you  
When I'm with you  
Wanna get loose  
When I'm with you  
When I'm with you  
No complications but do you feel like I do?  
Do you feel like I do, I do?  
When I'm with you, you? Yeah yeah  
Do you feel like I do, I do?  
When I'm with you, you? Yeah yeah
