

# Love Is Love (feat. MOTi) [MOTi Remix]

Starley

You asked me if it's your fault  
For letting me play with trucks when I was younger  
And then you went on to say  
"How will I break these news to your mother" And you say you cried for three days straight  
daddy  
And I don't understand you  
'Cause loving her, it ain't a [?]  
She makes me happy We've got to hold one another  
We've got to hold on real tight  
You know we only have each other  
As long you open up your eyes  
'Cause love is love, oh  
'Cause love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love Today I'm flying home  
I haven't seen my family in forever  
And the last time that we spoke  
You said music's changed me enough for the better And you say you cried for three days  
straight daddy  
And I don't understand you  
'Cause loving her, it ain't a [?]  
She makes me happy We've got to hold one another  
We've got to hold on real tight  
You know we only have each other  
As long you open up your eyes  
'Cause love is love, oh  
'Cause love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love I don't remember when I realized  
My life had changed forever, I...  
Ooh, I can't live a lie, mmh  
You say why can't it be a man  
Why can't I learn to live in God's plan  
'Cause two women aren't supposed to kiss and hold hands Do you remember when you told me  
daddy  
If they don't understand me  
Then don't go changing who I am  
Just 'cause it makes them happy We've got to hold one another

We've got to hold on real tight  
You know we only have each other  
As long you open up your eyes  
'Cause love is love, oh  
'Cause love is love Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is, love is love  
Love is love  
Love is love
