

# Confetti

## Big K.R.I.T.

Your confetti ain't even heavy nigga  
Got the win, I want the record nigga  
What's a crown if you don't protect it, nigga?  
What's a name if they don't respect it, nigga?  
Nah, your confetti ain't even heavyThese niggas fucking up the game  
This shit is so suspicious  
You ain't buy it all unless you blew a ticket  
All up in the VIP, but you ain't fuck them bitches  
I'ma ball all summer just to flex for Christmas  
Angel wings on the doors, I gotta suplex em'  
Money don't make you fly, that's just my perspective  
Running up the score just to expose a bluff  
'Cause nowadays gettin' a win just ain't enough  
Fuck the check up last week, I got a new agenda  
The last time I couldn't buy some shit?  
I can't remember  
The last time I fucked the world, I must've bust the center  
I bought a crib and set that bitch on top of Mount Olympus  
When you living that high up, it's hard to see the tension  
I'm only selling game, I'm all out of simping  
Grip the foreign like a trophy, gotta hold it steady  
Fuck your party when your confetti ain't even heavy, nigga  
Got the win, I want the record nigga  
What's a crown if you don't protect it, nigga?  
What's a name if they don't respect it, nigga?  
Nah, your confetti ain't even heavyWe all off in the club like Sincere in Belly  
Can't even drink my liquor, money on my celly  
Account it like you got a check, spend it when you ready  
I'm giving niggas hell, pray I go to heaven  
Nailing in they coffin, the cost of them being off it  
Balling since Iverson crossed you  
Winner's circle, my office  
Fucking off with these wins  
You fucking up with this loss  
Waiter forgot my season, I'm glad that they throwin' that salt  
Might just throw a toss and holla fuck it  
'Cause when your wrist game know the grip changed  
Nigga buckets  
Chip rain in the strip game, hoes will bust it  
Snakes come, chop they heads off  
Kobe clutching on a meal ticket  
Motherfuck you if you feel different

I caught a break, no debate, and you still fishing  
The genie out the bottle and you still wishing  
Know my downfall 'cause you petty  
Confetti ain't even heavy nigga  
Got the win, I want the record nigga  
What's a crown if you don't protect it, nigga?  
What's a name if they don't respect it, nigga?  
Nah, your confetti ain't even heavy
