**Will Haven**

Justice for the enslaved Our minds are showered by ideas projected  
Our lives are material, lived through misguided obsessions Your thoughts and feelings are not  
yours

They're someone's bought air time  
It's time we turn off Our lives, influenced by special interest  
Our lives, influenced by special interest We watch, we die  
We stop, they die  
We watch, we die  
We stop, they die
