

Free

Stryper

Free to turn away say goodbye
Free to walk away and deny
The gift waiting for you
whispers the still small voice
It's your choice You're free (free, free, free)
Free to do what you want to
Choose your own destiny (free, free, free)
Free to do what you want to
Free to open up and believe
Free to open eyes and receive
There's no better time than now
you've got the right to choose
you can't lose You're free (free, free, free)
Free to do what you want to
Choose your own destiny (free, free, free)
Free to do what you want to GUITAR SOLO
Free, free to do what you want to
choose your own destiny
free to do what you want to free, free to do what you want to
choose your own destiny
free to do what you want to
