

Love Again

Baxter

I heard a rumor from a friend
And another one said
It was impossible to push
Your feelings away I heard it took a lifetime
For someone to forget a love
But she did yes she did forget it
At last I need a friend
I need you
I need a friend
I need you I need a friend to
Take me home again
I need you to make it true
They said it could be better
If I let my love be a part of me
To let in, to be brave without games
Or lies But what if everything that I give to you
Make you scared,
Make you leave will I ever dare to
Love again I need a friend
I need you
I need a friend
I need you I need a friend to
Take me home again
I need you to make it true
I need a friend
I need you
I need a friend
I need you
I need a friend
I need you
