Promise (feat. Fetty Wap)

Kid Ink

Always, ugh
You straightI love the way you stare
At me when you look my way
This is something you should hear
Baby would you come my way
There is nothin' else to fear
Girl come with me, you straight
This is somethin' you should hear
I promise you, you straight
Girl come with me, you straight
I promise to be great
I promise you, you straightI promise to be great
I do tell you what you wanna hear
Hope it don't go in and out of one ear
You the only one that I wanna stare at in the mornin'
Girl cause you on of them
Diem pieces rollin' up with me, it's no keisha
Shawty don't ring the bell, she got a key set
Your girl for rent and mine on the leases, leave it
If you tryna holla at her
You gotta do more that throw a dollar at herMy girl got a Chanel and Prada habit
Everything automatic but I know it matterI love the way you stare
At me when you look my way
This is something you should hear
Baby would you come my way
There is nothin' else to fear
Girl come with me, you straight
This is somethin' you should hear
I promise you, you straight
Girl come with me, you straight
I promise to be great
I promise you, you straight
I promise to be greatI promise that I'm just tryna be honest that
I ain't got time for no side bitch
I'm already tryna make time for your fine ass, woah
Baby girl you straight
No boo baby, no more scrapes
I used to be a dog but it's no more straysAnd the way that I ball on you, no more fads, aw
You the real deal, graduated
University of Trillville
But then that bitch come out you gon' Kill BillSomethin' bout that shit that' so cute and I still feel like

I love the way you stare
At me when you look my way
This is something you should hear
Baby would you come my way
There is nothin' else to fear
Girl come with me, you straightThis is somethin' you should hear
I promise you, you straight
Girl come with me, you straight
I promise to be great
I promise you, you straightI promise to be great
Girl I know you like meCome and be my wifey
Cannot do it like me
Shouldn't take me lightly
Girl I know you like me
Come and be my wifey
Cannot do it like meShouldn't take me lightly
I love the way you stare
At me when you look me my way
This is something you should hear
Baby would you come my wayThere is nothin' else to fear
Girl come with me, you straight
This is somethin' you should hear
I promise you, you straight
Girl come with me, you straight
I promise to be great
I promise you, you straight
I promise to be great
Girl come with me, you straight
I promise to be great
I promise you, you straight
I promise to be great
