

Attention (feat. Chace & Kalibwoy)

Yellow Claw

[Intro]

All you wanted was attention[Verse 1: Chace]

You know just what I'm needing

And you refuse to see it

I guess sometimes I wonder

Is this what you wanted

There's not much I could say right now

If there's a price I could pay right now, ooh

How much for us to run away?

You're all I need to lead the way

[Pre-Chorus: Chace]

Where are we now?

And where are we going?

You can't help me now

Your lies are colliding[Chorus: Chace]

All you wanted was attention

[Verse 2: Kalibow & Chace]

I was there last time

I resist to let go

Everything used to be real

Seems like it fading

Your heartbeat is rising

[?]

I'mma still love you

Never let you go

We keep it there now

There's not much I could say right now

If we keep on fighting like this

We are in it, bouf, we are J Law

How much for us to run away?

Nah, yeah baby

Nat, hey baby now play 'round

We don't wanna leave

We just wanna stay now[Pre-Chorus: Chace]

Where are we now?

And where are we going?

You can't help me now

Your lies are colliding[Chorus: Chace]

All you wanted was attention

All you wanted was attention
All you wanted was attention
All you wanted was attention
