

Here I Am

J Boog

Watcha' gonna do when ya' get dat chance
Is it gonna slip away, Don't let it pass yah faaast
Later on, ponder and regret
Beacuse ya' planned a life
Out of a dove and had to check
You gotta, sacrifice
See the hype of the moment
Lettin the time pass you by
Gettin older by da minute
Life is short, there's no messin' around
And Imma live it to the fullest til' the day I go down
YesHere I am, jah use me
And prove me, to be worthy
All I Have, is this gift you gave
To help me save, My soldiers on the street yeah
And I'm confuse up in my head
wonderin, what I was gonna be
Didn't know anything
But hot work and heavy drinking
But troubles Blaze
I relieve a stress, and rain up on my name
Yesterday, prophets of the almighty say
Bretheren you have a purpose in life
You have the gift of music and you better use it wise
Cause the people are waitin' for the time
Got to step to the plate and better not think twiceHere I am, jah use me
And prove me, to be worthy
All I Have, is this gift you gave
To help me save, My soldiers on the street yeah
Finally, its all clear to me
I have to embrace the gift that was sent from thee
And I'll never forget it from
My body its all up in and music is what I deliver, Yes Now
Finaly, its all clear to me
I have to embrace the gift that was sent from thee
And I'll never forget it from
My body its all up in and music is what I deliver, Yes Now
Whoa!Here I am, jah use me
And prove me, to be worthy
All I Have, is this gift you gave
To help me save, My soldiers on the street yeahHere I am, jah use me
And prove me, to be worthy

All I Have, is this gift you gave
To help me save, My soldiers on the street yeah Here I am, jah use me
And prove me, to be worthy
All I Have, is this gift you gave
To help me save, My soldiers on the street yeah
