

# Love Gets In the Way

Blake Shelton

Little by little, now babe  
I've come a long, long way  
Picking up the pieces  
That you threw away  
Did you give it up  
Did I let you down  
Either way, it doesn't matter  
'Cause I'm finally comin' 'round  
I hope you find where you belong  
Hello, goodbye, life goes on.  
In another town, in a little place  
Looking in the eyes of a pretty face  
I ain't no fool  
I know what she's thinkin'  
I can hold her in my arms  
But I could never let her stay  
'Cause love, your sweet love  
Still gets in the way. Minute by minute  
I hear the voice in my heart  
Be a man, take her hand  
And make a new start  
So, I think a little less  
I drink a little more  
'Cause all in all she's everything  
That i've been waiting for  
She smiles that smile  
I face the fact  
Love's a give a take thing  
And I can't give it back.  
In another town, in a little place  
Looking in the eyes of a pretty face  
I ain't no fool  
I know what she's thinkin'  
I can hold her in my arms  
But I could never let her stay  
'Cause love, your sweet love  
Still gets in the way.--- Instrumental ---In another town, in a little place  
Looking in the eyes of a pretty face  
I ain't no fool  
I know what she's thinkin'  
I can hold her in my arms  
But I could never let her stay

'Cause love, your sweet love  
Still gets in the way
