

# Feels in My Body

## Icona Pop

I been staring at the hotel lights all night  
Waiting for somebody who can catch my vibe, alright?  
Everybody getting up, but I'm still last night  
Looking for a party that can match my hype, alright? All these raw emotions flowing through  
me, got me electric  
Now my mind is open with the music, it's automatic  
Oh, I can't even deal with my  
I gotta be real with my  
I can't even deal with my I got all these feels in my body  
I'm out of control now, I can't be alone now  
I can't deal with these feels in my body  
I'm up in the zone now, I can't be alone now  
Oh, I can't even deal with my  
I gotta be real with my  
I can't even deal with my Oh, I can't even deal with my  
I gotta be real with my  
I can't even deal with my I got all these feels in my body  
I'm out of control now, I can't be alone now  
I can't deal with these feels in my body  
I'm up in the zone now, I can't be alone now I've been running round town like a wild child do  
Waiting for somebody who can feel it too, do you?  
If you do, I could take you up higher than the moon  
Wanna come along, wanna give you that view, it's true All these raw emotions flowing through  
me, got me electric  
Now my mind is open with the music, it's automatic  
Oh I gotta be real with my  
I can't even deal with my  
I got all these feels in my body  
I'm out of control now, I can't be alone now  
I can't deal with these feels in my body  
I'm up in the zone now, I can't be alone now I got all these feels in my body  
I'm out of control now, I can't be alone now  
I can't deal with these feels in my body  
I'm up in the zone now, I can't be alone now
