

Drink It Up

[Kenny Chesney](#)

Drink it up, don't waste a drop
Squeeze every second out of that old clock
Kick it back, man, enjoy the ride
Keep livin' everyday like it's Saturday night
Cuz you only get so much lighting in the bar
It's only so many times you get to feel like this
Light it up, burn it down, that's what life's all about
And you can't just take a lil sip, fill yo cup, drink it up
Let it roll at the big wheels turns
Swing a lil gravel goin' through those turns
You and me, we gotta soak it in
Keep it plankin' like this party's gonna neva end
Cuz you only get so much lighting in the bar
It's only so many times you get to feel like this
Light it up, burn it down, that's what life's all about
And you can't just take a lil sip, fill yo cup, drink it up
Get it while you can, take it to the limit
Live out every single minute while you're in it
Cuz you only get so much lighting in the bar
It's only so many times you get to feel like this
Light it up, burn it down, that's what life's all about
And you can't just take a lil sip, fill yo cup, drink it up
Cuz you only get so much lighting in the bar
It's only so many times you get to feel like this
Light it up, burn it down, that's what life's all about
And you can't just take a lil sip, fill yo cup, drink it up
