Only Getting Younger (feat. Skrillex)

Elliphant

While your skin go wrinkle, we only getting younger
We ride into a peek, we can't take this shit no longer
Main our mind a lover man a body go weak
I got my bloody truth, I got my BAS crew with me
Walk around with bloody hands, I saw you lick it off
We gon' keep them dirty just to prove a point
Keep it dirty it's for truth that my crew hunger
What, so fuck tomorrow, we only getting younger

All universe implode in me, up or down in and out no matter GNow stop falling, I smell like a fox

Coloring, questioning a blank answer box
Trip on trigger true, twist a tune trick a dumb
Fresh like a fungus smelling shit, smelling numb
We born together, together we keep struggle
So fuck tomorrow we only getting younger

Fuck tomorrow we only getting youngerYou to follow, we are here to rumble

Grab a hand, take things too long

Drag shit to its fullest, blow me right from wrong

Stand tall, free I fall, your call is my ball

Now yours, close them doors get blown by a force

Of truth missing youth, fuck the shows Skrillex, hahaLoose the goose man!Fuck it!

Walk around with bloody hands, I saw you lick it off

We gon' keep them dirty just to prove a point

Main our mind a lover man a body go weakI got my bloody truth I got my BAS crew with me I got my, I got my, I got my

Me and my bitches, me and my dogs

Dandelion war keep digging streets for gold

Feeling kind of tense I need a cup of whiskey

My glass is overfull be careful when you pass me

We dominate this corner with my BAS family

Overtake this blocker with my boom energy

Born to be a rocker gotta grow with us

Acting like a sucker, suck it up, suck it all

Walk around with bloody hands, I saw you lick it off

We gon' keep them dirty just to prove a point

Main our mind a lover man a body go weak

I got my bloody truth I got my BAS crew with me

I got my, I got my, I got my

So fuck tomorrow we only getting younger
