

# Just What the Doctor Ordered

**Ted Nugent**

I got my guitar when I was 10 years old  
Found a love in rock an' roll  
Now I'm on the verge of a  
nervous breakdown  
I'm goin' give my body and soul It's so crazy  
But you know that I like it  
I've found a cure for my body and soul  
I've got me an overdose of rock and roll I jammed everyday  
I jammed everynight  
I practiced till I knew all the licks  
Now I'm on the verge of a  
nervous breakdown  
I don't know the meaning of quit  
It's so crazy  
Yes you know, but I like it  
It crushes my head, my  
brain is on the border  
But this is what the doctor ordered  
Yes, it is I jammed everyday  
I jammed everynight  
I practiced till I knew all the licks  
Now I'm on the verge of a  
nervous breakdown  
I don't know the meaning of quit  
It's so crazy  
But I like it  
It crushes my head, my brain is on the border  
But this is what the doctor ordered Just what the doctor ordered  
Just what the doctor ordered
