

As Above So Below (Outro)

Anthony David

Far and away out on the edge
There's a difference on a fringe
Turn it around, closely inspect evolution on to the next
Take a look around
No we're not done and we never will be,
Look at what I've found, harmony. YeahChorus:
As above so below
As above so below(4x)
Blink of a eye, natural select,
Infinite waves, butterfly affect,
All from the one, the first and the last,
The future present is past
Memories of now become meaningless,
And history is what comes next
All that is left, our dreams and wishes, Come to accept it is what it isChorus:
As above so below
As above so below(Ad libbing throughout)
As above so below
As above so below
