

In Harm's Way

BeBe Winans

Undying love you've given to me
Seen in me things, I would never have seen
I don't understand why you care so much
It's all a mystery Time and time again I ask myself
What have I done to deserve such wealth
The price you paid, I could never repay
Your generosity In wanting to save me
In order to save the day
'Cause of love you placed yourself
In harm's way
It's truly beyond me
Left without a word to say
What kind of love would place itself
In harm's way
What kind of love would place itself
In harm's way When I was down you came and lifted me
When I was bound, yes, you set me free
Things that you do makes it clear to see
It's all a master plan Oh, no greater love that I've come to know
And when I refuse, you still love me so
With open arms you came and rescued me
And erased all the pain, yes all the pain In wanting to save me
In order to save the day
Because of love you placed yourself
In harm's way
It's truly beyond me
No, I'm left without a word to say
What kind of love would place itself
In harm's way
What kind of love would place itself
And then risk your life for love's sake What kind of love just takes on all the blame
It seems to be so easy
It hurts sometimes but you never let go
You will to love in spite of all you know, you know, you know In wanting to save me
In order to save the day
Because of love you placed yourself
In harm's way, yes, you did It's truly beyond me
I'm left without a word to say
What kind of love would place itself
In harm's way
What kind of love would place itself
In harm's way What kind of love would place itself

In harm's way
'Cause of love
In harm's way
