

# Always Knew

Lecrae

Yeah, this right here is dedicated to my family  
My friends, my lady, everybody that helped me down through the highs and lows.  
Especially the Lord, you know what I mean?  
You held a bright light in my life, you feel me? Shine a light on me  
You shine a light on me  
You shine a light on me  
You shine a light on me  
Yeah, ayy  
Shine a light on me  
Learned a lot over these last few years  
Industry people ain't friends, just peers  
I learned that these girls easy like the morning of a Sunday  
They don't love you 'til you gone like Harambe  
Still killin' over colors, now it's black and blue  
We dyin' every day, B, we just don't make the news  
When you speak out for your race, just watch  
They gon' twist and say you hate these cops  
I'ma take these shots  
How can he love Jesus, Kanye, and K-Dot?  
Martin, Malcolm, and Schaeffer, Mitsubishi, and Maybach?  
Contradictory, nah, it's complimentary  
Understanding me ain't for the simple and elementary, oh I know this might go over some heads  
But I come from being government fed  
Could be running from feds  
But now I give the government bread  
'Cause you playin' back the words that I said  
I can't believe we made it through  
My momma said she ain't surprised, told me that she always knew  
My day ones still the same ones, love to the crew  
I told my lady, "I ain't never met nobody like you"  
A thank you Now I remember, uh, I was sittin' in my room  
Glued to my television daily after school  
And I never saw me goin' to college  
Higher learning was a different world, I can acknowledge  
I used to imagine me in a black Range  
Gettin' paid from doin' this lil' rap thing  
And now I'm payin' these professors couple thousand for a lesson  
Graduated, in recession, Sallie Mae just wanna check in, I'm stressin'  
Rap music, it was all a dream  
Now I'm in a session chasin' my dream  
Who would have knew? Man, it's crazy  
S1 introduced me to Jay-Z

Never met my dad, but I met the music that raised me I know this might go over some heads  
But I come from being government fed  
Could be running from feds  
But now I give the government bread  
'Cause you playin' back the words that I said  
That's crazy I can't believe we made it through  
My momma said she ain't surprised, told me that she always knew  
My day ones still the same ones, love to the crew  
I told my lady, "I ain't never met nobody like you"  
A thank you Listen, I know God did it, can't take the credit  
Paid off all of my debts, but I still feel so indebted  
Been all over the world with these songs I wrote  
My life story oughta to give y'all hope  
Without a doubt I've been doubted and counted out  
I've been down for the count, about to quit  
Momma told me keep going 'cause I was made for this  
I either get a scholarship or I could get a hit  
I still can't believe I made it here I can't believe we made it through  
My momma said she ain't surprised, told me that she always knew  
My day ones still the same ones, love to the crew  
I told my lady, "I ain't never met nobody like you"  
A thank you Shine a light on me  
You shine a light on me  
You shine a light on me  
You shine a light on me  
Yeah, ayy  
Shine a light on me  
You shine a light on me  
You shine a light on me  
You shine a light on me  
Yeah, man
