What If (feat. TK Kravitz)

Lil Durk

I look at the whole situation like
What if I didn't have this jewelry
What if I didn't have these, this car
What if I didn't have this house
What if I didn't have this fame
But the mother fucker who with me right now who still supporting me
That's what I'm trying to figure out, you know what I'm saying?
And I've been going through trials and tribulations, trying to see like if the lord real is it genuine or if it's what I got you know what I'm saying?
What if I didn't have none of this shit
Baby, you know how I'm coming
I came all from nothing
That's why I came for with you niggas who be fronting
If you my dawg, You my dawg for real, For you I kill
If I got it then you got it too, That's the deal
Just don't change on me my nigga
My life can't get no bigger
I became a big spender
But you still don't get the picture
That money don't mean shit to me
That money don't mean shit to meI notice everybody love you when you got something to give
(Everybody I'm talking everybody)
But what if I ain't have it
Would you still be my real (My Real!)
If I didn't have nothing to give
What if I ain't have nothing to give
What if I ain't have nothing to give
I lost so many niggas I tried to tell about em
We drop cover from niggas you don't hear about it
I tell my niggas I love them to death that's on my dead body
I do and give up my lif, I say everybody
Think they finessing Durk will not help them out
Cause I won't they ass to win, and take a better ground
Wish Law didn't take that 15 he didn't settle well
They get em off the street to make em settle downI notice everybody love you when you got something to give
(Everybody I'm talking everybody)
But what if I ain't have it
Would you still be my real
If I didn't have nothing to give

What if I ain't have nothing to give
What if I ain't have nothing to giveMy momma said I don't love nobody but codeine
Trapping like a fool till my pockets obese
Real call 2 ten murders on the police
Gave them 20 years still sending money every week
I feel like [?] we don't ever speak
Told team we need plaques so we don't ever sleep
I'm Forever real I'm from the [?]
Can't struggle [?]I notice everybody love you when you got something to give
(Everybody I'm talking everybody)
But what if I ain't have it
Would you still be my real
If I didn't have nothing to give
What if I ain't have nothing to give
What if I ain't have nothing to give
What if I ain't have nothing to give
What if I ain't have nothing to give
