

# Lost (feat. Janet Devlin)

Gareth Emery

And there's no smoke without reason  
It's a sign there's something wrong  
In my lungs there's a poison  
I've been breathing in too long  
    'Cause there's no I  
    No I in We  
And there's no You,  
    No You in Me  
Cause I've been burned  
Way beyond the third degree  
Cause your words are like gasoline  
    You pour on the fire  
    and the bridges you burned  
    Led to our dreams  
It's just another thing that we lost  
When the spark turned into a flame  
And the flames grew much higher  
And my hope, faith, and every last desire  
Is just another thing that we lost in the fire  
    Just another thing that we lost  
    Just another thing that we lost  
    Just another thing that we lost  
Ashes fall just like snowflakes  
That are warm against my skin  
You say that we could re-build this  
Wouldn't know where to begin  
    Cause there's no snow  
    And there's no rain  
    To hide my tears  
    To douse these flames  
    Cause I've been burned  
Way beyond the third degree  
Cause your words are like gasoline  
    You pour on the fire  
    And the bridges you burn  
    led to our dreams  
It's just another thing that we lost  
When the spark turned into a flame  
And the flames grew much higher  
And my hope, faith, and every last desire  
Is just another thing that we lost in the fire  
Is just another thing that we lost in the fire

Is just another thing that we lost in the fire  
Is just another thing that we lost in the fire  
Is just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost
