

Outstanding (feat. Ryan Leslie)

Talib Kweli & Z TRIP

Hey you
Yeah you (Yeah)
Hey you
Yeah you (Yeah)
OHHHHHHH OH OH AHHHH The night is young
Yeah Yeah Yeah
The night is young
Say it with me say it with me
La la la la la la la, yeah (The night is young)
'Cause you the winner you the winner! Girl you're outstanding
From the hips to your thighs,
accept it that's how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours,
yeah
While you walking everybody watching you closely
Hitting them high notes, nothing about you low key
Just let it register, body is unreal,
Was animated like Jessica Rabbit
A cartoon wanna stab like a harpoon
These dude is tryin to grind and
dance with your body like an oasis
The thirst is so real you can see it all in they faces
Especially when you drop it low, baby you gotta know
Girl you be killin 'em fillin them with all kind of hopes
Dude on the block that be selling dope
by the shoes and the watch you can tell he broke
Tell him stop with the lies he tellin folks,
you can't see with a telescope
Celebrating, holding glasses up like Sara Palin nose
Love it in the club when the fellows go
but you hate that your hair gotta smell like smoke
They ask you what is hitting for
Nigga try to fix the prices, never dealt with chicks before
You ain't got your liquor license,
still you down to live your life
if dude is down to split and slice your pie
You like to master act all fly
Until he hit it right
Hey you girl with the tight upskirt,
In the back of the club where they light up purp

Known to drop it like a stripper, with her night off work
They make it rain and you stuff them dollars right in your, purse
Girl you're outstanding
From the hips to your thighs,
accept it that's how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours, yeah You just looking for somebody that can fill in the
spot
Fill in the blank yeah shorty you been sippin alot
Fillin the drink as the seeks to your head
you erase your regrets
Throw another shot back as you race to forget
Yeah the night just started, we both parted from ex love
Sleep won't make you forget him baby but sex does
Swear you ain't looking for no one night stand
But you prepare to risk it all for that one right man
That's me, let's have a toast to your future
I know you want to
Leave your ex in the past, don't let him haunt you
The last argument was world war 3, but follow me
I introduce you to that birge wazi
Talk is cheap, welcome to the R. Les show
You be my brigitte bardo, I'll be your Serge Gainsbourg
Give what you came for let me get that car do'
Have you ever made love in the lambo gallardo?
(GO! GO! GO!)
Have you ever made love in the lambo gallardo?
(GO! GO! GO! GO! GO!) Girl you're outstanding
From the hips to your thighs,
accept it that's how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours, yeah.
