

Night Owls Early Birds

Foxes

Do the walk of shame in your best dress
Put your hands in the air
Even though I'm still sleeping
Paint the roads on these wall
Just to feel like I'm going place
Join the rest of the world
In the dome of the new morning Strange eyes wandering
The night has come
We're all under the ground
Can't be found Night owls early birds
Wide-eyed looking like you're on a curse
Save me, save me, go underneath the ground
Wild fires army birds
Swaying a little like I'm wet for words
Save me, save me, go underneath the ground
Let the young hearts fool around, break away
They make mistakes and live for them
Let the fire in the city burn
Wanna feel, feel the embers warming Strange eyes wandering
The night has come
We're all under the ground
Can't be found Night owls early birds
Wide-eyed looking like you're on a curse
Save me, save me, go underneath the ground
Wild fires army birds
Swaying a little like I'm wet for words
Save me, save me, go underneath the ground Ooh, ooh ooh ooh
Ooh, ooh ooh ooh
Ooh, ooh ooh ooh, ooh
Strange eyes wandering
The night has come
We're all under the ground
Can't be found Night owls early birds
Wide-eyed looking like you're on a curse
Save me, save me, go underneath the ground
Wild fires army birds
Swaying a little like I'm wet for words
Save me, save me, go underneath the ground Ooh, ooh ooh ooh
Ooh, ooh ooh ooh
Ooh, ohh ohh ohh
