

Fuck It

Wiley

BBK is the team, that's Boy Better Know
And we're living out that dream, them boys better know
Let off the bars all day, no problem
Don't just sent me a couple of beats, I don't want them
I want fire, I want fire
I want tracks that take a man higher
I want tracks that take a man forward
I can't spit on that, it feels awkward
I got a flow, deadly like cyanide
You're bound to hear me when I'm flying by
Genius, I know it
I don't need to front cause I show it
When I'm being myself they cannot hear me
When I'm being myself they cannot hear me
But when I tame it down then they can hear me
But when I tame it down then they can hear me
I got gassed up by this riddim sent from Deeco
Life of Wiley finally saw me roll through Heathrow
I can't believe how much of the history that he knows
He's sayin' I'm a legend, just do this thing for the people, for the people
When I find a 5 I'm not scared to buss it
Came from the heart, that's why I trust it
Take my time, I ain't gonna rush it
I'm doing what I want, fuck it
Fuck it
Some fans still want all the music from the year 2000
Them vibes, won't get them again
That was then when we found 'em
That's askin' a lot when I'm fair on the pitch passing a lot
I got quite sick of opinions, rise above now I'm laughing a lot
Stuck in the mud, overseas and I'm in luck with the buds
Zone out to the crazy stuff
All if the ifs and the buts and the maybe stuff
Wanna do what nobody does
Take a risk cause nobody does
I ain't playing it safe any more
I ain't playing that make or break any more
Cause when I'm being myself they cannot hear me
When I'm being myself they cannot hear me
But when I tame it down then they can hear me
But when I tame it down then they can hear me
That perfect blend of love and hate could take you flying

But you will get left behind if you're not trying
I told my dons I've had enough and I'm not lying
Some MCs try to paint a picture but I ain't buying
