Ride

Cary Brothers

You are everything I wanted The scars, all I'll ever know If I told you you were right Would you take my hand tonight? If I told you reasons why Would you leave your life and ride? And ride You saw all my pieces broken This darkness that I could never show If I told you you were right Would you take my hand tonight? If I told you the reasons why Would you leave your life and ride? And ride and ride and ride If I told you you were right Would you take my hand tonight? If I told you the reasons why Would you leave your life and ride? And ride and ride and ride Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
