

# Sailing

Mike Oldfield

Let me out, I can't breathe  
Gotta get out of this concrete hole  
I'm wrecked and I'm decked  
I've gotta break free before I lose control  
Cast the lines away From the dock at the harbour bay  
All those cares and worries and woes  
You can save them for another day  
Because we're sailing, sailing  
Yes we're sailing, sailing  
Give me space, I'm on fire  
Banging my head against a hard brick wall  
And I'm gone, so long  
You can leave a message but I'll never call  
Cast the lines away  
From the dock at the harbour bay  
It's a fine bright day  
And the wind is blowing away  
Let's go sailing, sailing  
Yes we're sailing, sailing Cast the lines away  
From the dock at the harbour bay  
There's no cares no worries no woes  
And the wind is blowing away  
Let's go sailing, sailing  
Yes we're sailing, sailing  
You know that if you want to come with me baby you can sail away  
Cast the line  
If you've got time, come with me baby  
Sailing, sailing  
Sailing, sailing
