All of the Stars

Ed Sheeran

It's just another night
And I'm staring at the moon
I saw a shooting star
And thought of you
I sang a lullaby

By the waterside and knew

If you were here

I'd sing to youYou're on the other side

As the skyline splits in two

I'm miles away from seeing youI can see the stars

From America?

I wonder, do you see them, too?

So open your eyes and see

The way our horizons meet

And all of the lights will lead

Into the night with me

And I know these scars will bleed

But both of our hearts believe

All of these stars will guide us homeI can hear your heart

On the radio beat

They're playing 'Chasing Cars'

And I thought of us

Back to the time

You were lying next to me

I looked across and fell in loveSo I took your hand

Back through lamplit streets and knew

Everything led back to you

So can you see the stars

Over Amsterdam?

You're the song my heart is beating toSo open your eyes and see

The way our horizons meet

And all of the lights will lead

Into the night with me

And I know these scars will bleed

But both of our hearts believe

All of these stars will guide us homeAnd oh

And oh

And ohI can see the stars

From America
