

# These City Lights (feat. Hannah Rae)

Moog

Drive me down to the pine tree  
Looking for lost hopes and dreams  
I feel your breathing in your heart beat  
Spinnin' tire set alight, fire on the street  
These concrete skyes make pitch black nights  
We carve our names with our headlights  
Open your eyes and you will see  
Home is you and me  
(home is you and me)  
Drive me down to the city light  
Faster and faster we burst into light  
Graffiti in our hands and -----  
Spinnin' tires, let them burn fire on the street  
Don't be afraid it's not your fault  
I'll lift you up when others won't  
Where there lies 'll be the truth  
And I would not forgive you  
These concrete skies make pitch black nights  
We carve our names with our headlights  
Open your eyes and you will see  
Home is you and me  
(home is you and me)  
These concrete skies, these city lights  
It was you and I  
These concrete skyes, these city lights  
It was you and I  
These concrete skyes, these city lights  
It was you and I  
These concrete skyes, these city lights  
It was you and I  
Don't say goodbye  
Don't ever leave  
Your hand in mine  
Home is you and me
