

One Drop

Public Image Ltd.

I am born in the London
I am no vulture, this is my culture
The laws of nature, ... all listen friends
We come from chaos, you cannot change us
Cannot explain us and that's what makes us
We are the ageless, we are teenagers
We are the focused out of the hopeless
We are the last chance, we are the last dance
One drop in all of this ocean
Not gotta be causing commotion
One drop not follow the motion
Not drop no proper emotion
One drop in all of this ocean
Get proper, follow the motion
Get proper drop of emotion
Not gotta be causing commotion
One drop
We all go down
The laws of nature, be for all us a lesson friend
We come from chaos, you cannot change us
Cannot explain us and that's what makes us
We are the ageless, we are teenagers
We are the focused out of the hopeless
One drop in all of this ocean
Not gotta be causing commotion
One drop not follow the motion
Not gut no proper emotion
One drop in all of this ocean
Get proper, follow the motion
Get proper drop of emotion
Not gotta be causing commotion
We come from chaos, you cannot change us
Cannot explain us and that's what makes us
We are the ageless, we are teenagers
We are the focused out of the hopeless
Born in the London, out of London, born in the London
But really we are born everywhere
One drop in all of this ocean
Not gotta be causing commotion
One drop not follow the motion
Not gut no proper emotion
One drop in all of this ocean
Get proper, follow the motion
Get proper drop of emotion
Not gotta be causing commotion
We come from chaos, you cannot change us
Cannot explain us and that's what makes us
We are the ageless, we are teenagers
We are the focused out of the hopeless
Now follow the motion
Get proper
Get proper, proper

emotion

Not gotta be causing commotion

One drop in all of this ocean

I Get proper, now follow the motion Get proper, proper emotion

Not gotta be causing commotion

One drop in all of this ocean

I Get proper, now follow the motion Get proper, proper emotion
