

# Take It

**Dom Dolla & Sonny Fodera**

Come on over cut some shapes  
Get it right up in my space  
So Shake it  
Just shake it  
Dance a little move some more push  
it back down to the floor and shake it  
Just shake it  
Looking deep into my eyes, bend it back and do your best to break it  
Break it  
Girl you really look the part reach right you you've got my heart  
Now take it, just take it
