

# Remember Your Smile

Enya

Lost in the mountains  
Far from the crowds  
We would wander together  
Walking for miles  
With the night still before us  
And day passing by  
I always remember your smileCool in the evening  
Warm in the sun  
Their clouds moving slowly  
Time was undone  
Yet the days fell before us  
And nights rolled on by  
I always remember your smile  
Every step and each moment  
Were all so worthwhile  
I always remember your smileI always remember your smileAnd it's strange how for a moment  
The heavens were mine  
I always remember your smile  
Each one has a journey  
That's how it goes  
Sometimes we're together  
Sometimes alone
