

Faster Than the Speed of Life

Steppenwolf

Ride the waves of ever love
Let them throw you on the beach
Gather real experience
While it's still in your reachFaster, faster
Faster than the speed of life
Faster, faster
Faster than the speed of lifeSummer nights of secret fun
Moving farther out each day
Like a shooting star you're flying
Burning up what's in your way
Faster, faster
Faster than the speed of life
Faster, faster
Faster than the speed of lifeScreaming through the walls of inhibition
Past the stream, you're breaking free
There you stand, attained and in confusion
Spread your arms and come to meFaster, faster
Faster than the speed of life
Faster, faster
Faster than the speed of life
Faster, faster, faster
Faster, faster, faster
Faster than the speed of lifeFaster, faster, faster
Faster than the speed of life
