

Getting Late

Floetry

Baby
Ooo baby
Baby, baby
Ooo um baby

Oh baby We need to um talk about where
We're taking this thing.
How far we're gonna let this go.
We've been here before.
Its getting late.
It's getting late.
Why you gotta be here?
Beside me.
Watching, needing, wanting me.
I'm afraid, (Don't Be)
I'm afraid, (Don't Be)

I'm so scared that you'll hurt me, twice.
Baby, oh baby baby baby Listen, I've already been thinking about you on my mind.
Far too often for you,
To be here at this time

You see, one hands on nine and the other's on my thigh.
Look, I already played with the idea of you
Being here in the morning
And the position for the crack of dawn
And the conversation before the yawning
But aah, it's getting late.
It's getting late.
Why you gotta be here?
Beside me.
Watching, needing, wanting me.
But I'm afraid, (you say) don't be.
But I'm afraid, (you say) don't be.
I'm so scared that you'll hurt me twice.
Oh Baby baby baby How's about I let you touch the space.
That you left behind,
The day that you stop smiling
The day that the tears started falling
But now were talking, touching
Almost making sensual again
We can taste the familiar,
'Cause, the family hour supports it.
Of this moment, but was led by the movements cause ah
It's getting late. It's getting late.

Why you gotta be here?
Beside me.
Watching, needing, wanting me.
But I'm afraid, (you say) don't be.
But I'm afraid, (you say) don't be.
I'm so scared that you'll hurt me twice.
Oh baby baby baby
Oh baby twice baby baby.I see the memories we replayed
Same space face bodies
I know there's a method to your manliness
But ah I'm afraidIt's getting late.
Why you gotta be here?
Beside me.
Watching, needing, wanting me.
But I'm afraid, you say don't be.
But I'm afraid, and you say don't be.
I'm afraid that you'll gonna hurt me baby, baby twice babyI see the memories replayed, same
space, same place
Same bodies baby I know this method to your manliness
But I'm afraid, babe
I see the memories replayed, same space, same place
Same bodies baby I know this method to your manliness
But I'm afraid, baby
