

# Pipe Bomb Dream

## Turnpike Troubadours

Tonight we're fighting in a losing war  
Don't even remember what we're fightin' for  
Running on hope and gasoline  
Got a real, bad feeling it's a pipe bomb dream  
So, I did a little something for the brave and free  
Now you gonna' make a law against a boy like me  
Took a few too many liberties  
It's a hard ass lesson to learn  
Roll the dice just one more turn  
Too heavy on the pedal and you crash and burn  
Driving all night with a steady hand  
Bringin' a heavy rig home from the promised land  
Oklahoma City by the morning sun  
I ain't never met a problem that I can't outrun  
I did a little something for the brave and free  
Now you gonna' make a law against a boy like me  
Took a few too many liberties  
It's a hard ass lesson to learn  
But I roll the dice just one more turn  
Too heavy on the pedal and you crash and burn  
Well, I was riding high when the lights came on  
I was 45 miles from the county line  
Hit a jackpot once went back for more  
From an old pipe dream to a cell block floor  
Say, it's alright but you know it's not  
And you're breaking up laws and you wind up caught  
It's everything or all for naught  
It's a hard ass lesson to learn  
Roll the dice just one more turn  
Too heavy on the pedal and crash and burn  
Too heavy on the pedal and crash and burn
