

Make My Day

Raphael Saadiq

Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play
Being with you, baby, that's gonna make my day
Come and help me, darling, I just want to play
Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play
Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play
Come and help me, darling, I just wanna play
