## I Can See

## **Mac Miller**

I'm so close I can taste it

The man on the moon keep playing Practical jokes, planet of mirrors and smoke That I fade away in You be complaining And I can't explain it I guess, nothing compare to the feeling of feeling amazing Now I'm switching location 'Cause Heaven too far when you live a basement I'm looking for balance, I'm in an oasis Well, I need somebody to save me Before I drive myself crazy And all I know if is live is but a dream then so are we Show me something, show me something, show me something And all I know if is live is but a dream then so are we Show me something, show me something, something I can see Yeah, don't tell me to stop Let me keep going until I cannot Life is a fantasy until you wake up in shock Hitting the ground, I'm hitting the ground, I fell from the top

Life is a fantasy until you wake up in shock
Hitting the ground, I'm hitting the ground, I fell from the top
You never expect to drop so hold on, boy
That's just the way it goes, your God don't wait for no one
And when that's all your know, it keep you on your toes
You got so far to go but look at where you came from
And all I know if is live is but a dream then so are we
Show me something, show me something, show me something
And all I know if is live is but a dream then so are we
Show me something, show me something, something I can see
