

Live a Little

Kenny Chesney

Stressed out, running late, racing down the interstate
Spilled hot coffee, down the front of my jeans
It's work, work, pay the rent, money and my time's spent
Not a minute left for me to be me
Been going like nothing can wait
I gotta get my priorities straight
I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little, love a lot

...

Friday night, here we go, do a little do-si-do
Kick back, have a laugh, catch my breath
Tell the band slow it down, there she is, think I found
Maybe Ms. Wonderful, I haven't met yet
It just hit me like a wrecking ball
She's giving me a wake up call
I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little, love a lot

...

Step back, smell the rose
Feel the sand between your toes
Unplug, unwind
Step out in the sunshine
I need to live a little, have some fun
Take some time, waste it on number one
Find a girl that brings my whole world to a stop
Live a little
I need to live a little, have some fun
Take some time, waste it on number one
Take the girl, get a map and pick any old dot
Live a little, we need to live a little, love a lot
