

Ride It

Jay Sean

Let me feel you
It's been about a month and twenty days...
And we're going round and round playing silly games...
Now you're saying, slow it down, not right now...
Then you wink at me and walk away. Now, let it be, let it be, let it be known...
Hold on, don't go...
Touching and teasing me, telling me no...
But this time I need to feel you...(Ride it) we are all alone...
(Ride it) just lose control...
(Ride it, ride it) come touch my soul...
(Ride it, ride it) let me feel you...
(Ride it) turn the lights down low...
(Ride it) from head to toe...
(Ride it, ride it) come touch my soul...
(Ride it, ride it) let me feel you...
MoVida was the club on Saturday...
You're acting like a diva saying you don't wanna pay...
It's gotta be your feisty style...
Raised eyebrow...
I love it when you look at me that way...
Now when you order a Mojito at the bar...
We applying lippy cause it came off from the glass...
The DJ plays your favourite song...
Kanye's on...
Now your backing in from me to dance...
Mmmm... pulling me, pulling me, pulling me close...
You close your eyes girl...
Whispering, telling me we gotta go...
Won't you take me home?. I wanna...
(Ride it) we are all alone...
(Ride it) just lose control...
(Ride it, ride it) come touch my soul...
(Ride it, ride it) let me feel you...
(Ride it) turn the lights down low...
(Ride it) from head to toe...
(Ride it, ride it) come touch my soul...
(Ride it, ride it) let me feel you... Everything was right until the phone began to ring She takes it
to the bathroom that's when I start wandering I can hear her voice; she's whispering but still it's
clear She's lying through her teeth but then she ain't even here
Last time that I checked my name wasn't Sarah so She must be telling her man that she's at her
girlfriend's home That's when it got scary she said babe I love you too
Now go to sleep or else you won't wake up in time for school

...music...
