

Remember Boys

Cole Swindell

Remember boys
never let a lady open the door
and be there with a lighter if she wants to smoke
Remember boys
never let her go to sleep crying
when she tells you about her dreams, you gotta fill them up with hope
Cause I dont want to be a one night boy
I dont want to be an aint right boy
I dont be a had a ball wait it out no call kind of love song boy
I dont want to be a regret
Or the one that she forgets
I dont wanna be a June to September, I wanna be one of those remember boys
Remember boys
Always open her beer first
And tell her that you love her, even when she makes you mad
And remember boys
No matter what you make it work
You want her and need her and fight to keep her let her know you know what you have
I dont wanna be a one night boy
I dont wanna be an aint right boy
I dont wanna be a had a ball wait it out no call kinda love song boy
I dont wanna be a regret
Or the one that she forgets
I dont wanna be a June to September, I wanna be one of those remember boys
No i dont wanna be a late night boy
I dont wanna be a heart break boy
I dont wanna be a cant trust him with your love kinda loser boy
I dont wanna be a regret
Or the one that she forgets
No I dont wanna be a June to September, I wanna be one of those remember boys
Thats right
I wanna be one of those remember boys
