

Beings

Madeon

These will be times that I will miss
Don't blame me if I don't come through
I spend a lifetime on this
But I will give it up for you Because I know what you do out of passion
But it only makes it harder for me
And I know that you're scared by the notion
We'll become who we meant to be Fall in the hands of a greater unknown
Let me be there
And tell me if you need time to prepare
All we'll demand is the world
Because I know what you do out of passion
But it only makes it harder for me
And I know that you're scared by the notion
We'll become who we meant to be Oh what we meant to be
Oh what we meant to be
Oh what we meant to be
We'll become who we meant to be
We'll become who we meant because I know
We'll become who we meant to be
We'll become who we meant because I know
We'll become who we meant to be
