

# Flight

Rich Brian

Now I see that everybody start to fuck with me  
'Cause they feelin' like I'm finna get them as an OG  
Flame lowkey  
On the top of the dictionaries talkin' down on me  
And I always say, "Guess we'll see"  
Guarantee that you'll always finna think I'm on speed  
Sound a little trippy, think I'm on LSD  
14 when I started doing it,  
home school kid never knew he was a prodigy, ayy  
Get back on the track, with the crack stack  
Pilin' in my wallet, gettin' fat like a shake shack  
Pictures on my Snapchat, that's all I got about last night  
All I know is shit was goddamn tight (ayy)  
Went to America, shit is feelin' biblical  
All my life I only saw it on the digital  
Said, "I don't give a fuck about a mothafuckin' po"  
On the beach so I could be smokin' indigo  
Flyin' 20 hours never felt so right  
They say I get better as the days go by  
I'm just tryna be the goat  
Used to see them walk by  
Gettin' ready for this life  
All I see is red and white  
Flyin' 20 hours never felt so right  
They say I get better as the days go by  
I'm just tryna be the goat  
Used to see them walk by  
Gettin' ready for this life  
All I see is red and white  
Landed in Chicago, met the customs  
Mean muggin' mothafuckers let me tell ya something  
And I almost got deported back to the home town  
'Cause I didn't know what road my hotels on  
Then I met my manager, Sean 88 chillin' in the passenger  
And I'm feelin' tripped out, seein' him for the first time  
Worked overseas for a year, that's a long run (88)  
Now I'm finally here, what now, what to do next? I don't care  
Every single day feelin' like I'm on a mission  
Workin' with Pharrell on my first damn session  
Never had to write in a room with nobody  
Feelin' under pressure, man this dude made "Happy"  
Wrote a couple bars while chuggin' on a Red Bull

Then all of the sudden, all my work is turned to papers ayyFlyin' 20 hours never felt so right  
They say I get better as the days go by  
I'm just tryna be the goat  
Used to see them walk by  
Gettin' ready for this life  
All I see is red and white  
Flyin' 20 hours never felt so right  
They say I get better as the days go by  
I'm just tryna be the goat  
Used to see them walk by  
Gettin' ready for this life  
All I see is red and white
