

True Believers

Darius Rucker

Church bells ringin' on our wedding day
Climb in that limo and we roll away
Yes, you always hear some people say
They're never gonna make it We settled in, and we settled down
In this quiet little seaside town
You were the rock i built my world around
And life won't ever break it We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
And we are two true believers
It wasn't easy gettin' here today
Sometimes you stumbled, or i lost my way
But every roadblock was a chance to say
Take my hand, i'm here beside you We fought and made it through the toughest parts
Now every day is one more chance to start
To look around and see that where we are
Is where we were trying to get to We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
And we are two true believers We are one before our God and heaven
Oh, we are one when the going gets rough
We are one now and forever
We are one gig, one life, one flame
We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
And we are two true believers Yeah, we are two true believers
