

# Out the Hood

B2K

Ohhh  
Listen baby[Verse 1:]  
See theres this girl that i know  
And shes more (more than average shes a perfect ten)  
Dont really know how to handle someone who (wants to put her on, make her number one)  
Shes so used to that mentality, got to hustle hard, riding in the streets  
Thats so crazy  
Somebodys baby  
Going through these things  
But I've got love for you and i wanna show you girl  
Ohhh(hook)  
Your friends dont like me  
For real though (baby girl)  
They say i'm no good for you (ohh)  
They're jealous cuz you finally found a real love  
Who only wants the best for you  
[Chorus:]  
I'm tryin to take you out the hood  
Show you something good  
Make sure you're ok  
Everything is straight (everything is straight)  
You're a superstar  
You deserve it all  
More than just a ghetto queen (more than just a ghetto queen)  
I wanna put you in some diamonds  
Take you to the islands  
Show you everything  
You aint never seen  
Just let me take you out the hood babe  
Let me take you out the hood baby (yeah yeah yeah)  
Girl let me change your world for you babe  
Take you out the hood  
[Verse 2:]  
Tell me have you ever seen (white sand on a private beach)  
Tell me did you wanna go somewhere (Somewhere you've seen on tv)  
Well girl i've got the means to take you anywhere  
So dont let your friends cause you to be afraid  
They're just lonely  
And you're the only  
Only thing that matters to me  
Even my homies, they gettin on me  
Cuz they see what you're doing to me(hook)

Your friends dont like me (your friends dont like me for real)  
For real though  
They say i'm no good for you (ohh)
