

Miss You

Cashmere Cat, Major Lazer & Tory Lanez

Took time to get you
Took time to let you know
Tried to forget you You're unforgettable There's 24 hours in a day
I think about you more than 24 times
Just trying not to think about you
But you've been on my mind
I got nothing for you but time
'Cause you always end up by my side
Through loving you, I needed time
I needed time, and now I'm like
Can I hit it like that?
Like this, like that?
Uh-huh, you know
Can I kiss it like that?
Like this, like that?
Remember that
Heaven, it feels like that
I won't lie to you, no, no
Can I hit it like that?
I've been waiting For you, you, you
Oh you, you, you
Oh you, you, you
Oh you
I've been waiting on and on and Took time to find you
You left to go away
Must I remind you, feelings don't go astray, no
There's 24 hours in a day
I think about you more than 24 times
Just trying not to think about you
But you've been on my mind
I got nothing for you but time
'Cause you always end up by my side
Through loving you, I needed time
I needed time, and now I'm like Can I hit it like that?
Like this, like that?
Uh-huh, you know
Can I kiss it like that?
Like this, like that?
Remember that
Heaven, it feels like that
I won't lie to you, no, no
Can I hit it like that?

I've been waiting For you, you, you

Oh you, you, you

Oh you, you, you

Oh you

I've been waiting Oh yes, it's true, true, true, true

I can be different for you, you, you, you

Show me the things I gotta do, do, do, do

I will be different for you, you, you, you

You, woah
