

# Gonna

## Blake Shelton

I'm gonna take you for a date  
Take you for a ride  
Gonna get you over there on the passenger's side  
I'm gonna put the radio on your favorite song  
I'm gonna crank it up and get you singing along Hey, hey (Hey, hey)  
Alright (alright)

Girl I'm digging on it, on you tonight  
Ain't it immediate, it's open now  
Wishing a woman  
It's the damn right  
Hold you tight, baby I'm gonna  
So what's it gonna take?  
What's it gonna be?  
We can pump it on the boulevard  
Or kick it in the country  
Me and you, you and me,  
Money back, guaranteed  
Love you every night in Daytona, I'm gonna Hey, hey (Hey, hey)  
Alright (alright)

Girl I'm digging on it, on you tonight  
Ain't it immediate, it's open now  
Wishing a woman  
It's the damn right  
Hold you tight, baby I'm gonna  
Love you all night long  
Till the cricket starts trippin'  
Girl I ain't just flirting, I'm certain  
I'm working on a long term plan  
Gonna be your man  
Gonna put a little rock steady on your hand Hey, hey (Hey, hey)  
Alright (alright)

Girl I'm digging on it, on you tonight  
Ain't it immediate, it's open now  
Wishing a woman  
It's the damn right  
Hold you tight, baby I'm gonna Hey, hey (Hey, hey)  
Alright (alright)

Girl I'm digging on it, on you tonight  
Ain't it immediate, it's open now  
Wishing a woman  
It's the damn right  
Hold you tight, baby I'm gonna
