

# I Feel You

## 3 Doors Down

They gave me a life that's not so easy to live  
And then they sent me on my way  
I left my love and forgot my dreams  
I lost them all along the way Those little things you say  
When words mean so much  
You never back down  
And they all shy away  
You always listen to me And what do I get  
To get me through these sleepless nights?  
And what do I have to hold  
When no one's there to hold me tight  
And what do I see?  
The only thing that gets me through this  
Is what I feel  
And I feel you  
And this ain't no bed of nails  
But they're not roses just the same  
God this road sure can be long  
Another endless day  
Another seven hundred miles  
That'll take me further from my home Those little things you say  
When words mean so much  
You never back down  
And they all shy away  
You always listen to me And what do I get  
To get me through the sleepless nights?  
And what do I have to hold  
When no one's there to hold me tight  
And what do I see?  
The only thing that gets me through this  
Is what I feel  
And I feel you  
I know what you're going through now  
Believe me I feel this And what do I get  
To get me through the sleepless nights?  
And what do I have to hold  
When no one's there to hold me tight  
And what do I see?  
The only thing that gets me through this  
Is what I feel  
And I feel you
