

# Love Ain't

## Eli Young Band

Hotels are made for two night stays  
Checking in and out  
Meeting strangers in the lobby  
Waking up and leaving town  
The next day  
But love ain't And whiskey's poured for when you're bored  
And alone on Friday night  
When you want to lose yourself  
And need a place to hide  
From all the pain  
But love ain't  
Love ain't you on a sidewalk in your new dress all alone  
Love ain't you calling me because he ain't picking up his phone  
The way you're talking sounds like he's somebody you should hate  
I may not know what love is girl, but I know what love ain't  
Come over let me show you what he can't  
'Cause he can only show you what love ain't Sad movies are for crying on the couch  
There in the dark  
That sad song it was written  
Just to try and get your heart to break  
But love ain't  
Love ain't you on a sidewalk in your new dress all alone  
Love ain't you calling me because he ain't picking up his phone  
The way you're talking sounds like he's somebody you should hate  
I may not know what love is girl, but I know what love ain't  
Come over let me show you what he can't  
'Cause he can only show you what love ain't (Love ain't) I wonder what he's doing  
(Love ain't) feeling like a fool  
And you can't keep letting him do it to you
